Business Consultants at work for you

CONNECTING YOUR BUSINESS TO THE RESOURCES YOU NEED.

Established in 1990, Business Consultants is a project-based management and technology consulting firm created to help clients execute strategies on a more cost effective basis by providing experienced and high-caliber management and technology consultants to address a myriad of corporate challenges.

Recognizing the need for high quality, affordable business services, we formed Business Consultants. As a viable alternative to large management consulting firms, Business Consultants is a full-service, solutions-orientated provider guided by integrity, collaboration and innovation. Our Big Four heritage has given us a wealth of experience in all areas of finance, accounting, technology and management consulting. For each new engagement, we assemble a multidisciplinary team to determine the resources necessary for success.

Tapping into the expertise of our global professional community, we bring the best people for the job — people who average 20 years experience; people who help our clients execute internal initiatives and innovate in new ways. Throughout our network of offices in North America, we offer a complete line of cost-effective business services second to none. Business Consultants has performance based culture that gets the best out of people by fostering a collaborative and growth focused environment, consistently delivering valuable insights for our clients.

YOUR BUSINESS IS OUR FOCUS!

Our primary goal today is the same as the one we began with back in 1990: to improve our clients' businesses by marrying advanced technology with clear thinking and solid expertise. We offer a full range of management consulting, systems integration and services tailored to the unique needs of each of the industries in which we have deep expertise - including: federal, state and provincial government, health, retail, energy, telecommunication and financial services.

We work at a senior level, counseling management and guiding existing staff toward the solution of complex problems and the development of improved management systems. We deliver premium, vendor-independent work, on-time and on-budget. Our advice and solutions are clear, practical and workable. By sharing our knowledge effectively, we bring greater flexibility, creativity, and resiliency to your initiatives - attributes that elevate your organization's performance. We take the time to thoroughly understand our clients' business situation and seek to develop strong long-term working relationships.

Business Consultants leads clients through various stages of transformation that result in measurable and sustainable performance improvement. Business Consultants works with clients to solve complex business problems and implement strategies and solutions to effectively address and manage stagnant or declining stock price, acquisitions and divestitures, process inefficiency, third party contracting difficulties, lack of/misaligned performance measurements, margin/cost pressures, performance issues, bank defaults, covenant violations, and liquidity issues.

VALUE PROPOSITION

With a deep understanding of the complex challenges that companies face in the overall business landscape and in a specific industry, Business Consultants provides clients relevant, measurable and sustainable solutions to address their business issues. Business Consultants can provide a great alternative to big consulting companies at significantly reduced cost.
